New Feature Story!

Strategies to Reduce Climate Change Can Also Improve Health

Tina Tyler-O'Shea (Program Administrator) and Kristen Fladseth (Senior Public Health Analyst) of Mendocino County Health & Human Services Agency discuss the development of a Climate Action Plan to create equitable, healthy, and sustainable communities.

"The City of Ukiah is currently in the process of developing a Climate Action Plan to reduce the community's greenhouse gas emissions and increase the City's resiliency to climate change. As part of the Climate Action Plan, the City consulted with Environmental Science Associates (ESA) to conduct an inventory of current and projected greenhouse gas emissions and identify strategies for reduction."
